

## **Now available in smaller screen sizes: Nokia Smart TVs on Android promise smart entertainment with access to popular streaming services, voice activated remote control and up to 4K UHD resolution<sup>1</sup>**

**The new Nokia Smart TVs provide access to thousands of apps via Google Play Store including Netflix, Disney+, Prime Video or YouTube and much more along with traditional live TV reception via cable, terrestrial or satellite antenna.**

**Vienna, December 16, 2020 - The new Nokia Smart TVs are now available in Europe in 32, 43 and 50 inch screen sizes, expanding the Nokia Smart TV range to seven different screen size options from 32 to 75 inch.**

### **Smart entertainment and unique remote control**

The 4K Ultra HD<sup>2</sup> and Full HD Nokia Smart TVs on Android™ give immediate access to over 7,000 Android apps from Google Play Store and famous streaming services<sup>3</sup> such as Netflix, Disney+, Prime Video or YouTube among many others. You can also access media libraries from the most popular TV channels, thousands of exciting Android games, music apps and much more is easily downloaded from Google Play Store. The installation is very simple and easy with on-screen instructions. Further advantages are automatic software updates from Google to ensure the highest security standards.

The elegant Bluetooth voice controlled remote control is ergonomically shaped and lies comfortably in the hand. The unique backlight function helps to find the right button even in dark rooms. Both the Netflix and YouTube apps can be opened immediately with direct access buttons on the remote control.

### **The right size for everyone**

The new smaller sized Nokia Smart TVs offer the right device for every need. Whether it is a guest room, a holiday flat or a teenager's room - a small device with the full range of modern entertainment is often required.

### **Extensive equipment and voice control**

The Nokia Smart TVs combine the familiar style, quality, and Nordic minimalist design of Nokia products with modern technology.

<sup>1</sup> 32 inch: Full HD with 1920 x 1080 pixels

<sup>2</sup> Resolution 3,840 x 2,160 pixels; 32 inch: Full HD with 1920 x 1080 pixels

<sup>3</sup> Subscription required

Connectivity is provided by four HDMI<sup>4</sup>, two USB, LAN, and audio/video connections as well as dual-band Wi-Fi and Bluetooth for quick coupling of the remote control and other Bluetooth devices.

Videos, photos, sports, mobile games, music and other content from apps that support Chromecast can be streamed from mobile devices onto the TV screen with Chromecast built-in. The Nokia Smart TVs support Google Assistant to search YouTube videos, the latest blockbusters or information by voice control.

The quad-core processor with 1.5<sup>5</sup> GB RAM and 8 GB ROM ensures smooth playback of games, videos, and web content. 4K Ultra HD, HDR10 and Dolby Vision ensure the best picture quality on the 43 and 50 inch models, while Dolby Audio and dts deliver excellent sound quality. The 32 inch model supports HDR10 and Dolby Audio. The built-in triple tuner for live TV via terrestrial antenna (DVB-T2), satellite (DVB-S2) or cable (DVB-C) enables reception of a large number of national and international Free TV programmes. A CI+ slot for Pay TV cards is available for Pay TV content. The Nokia Smart TVs also support SatCR for the connection of up to eight receivers with one SatCR LNB.
